

John Keells Computer Services (JKCS) is the software services arm of John Keells Holdings, Sri Lanka's largest listed conglomerate. JKCS is a leading provider of software services to the global airline industry. From leading Flag Carriers to benchmark Budget Airlines, JKCS has delivered solutions to some of the biggest names in the aviation arena in Europe, Middle East and Asia. Our solutions are used by passengers to book flights, earn air miles, and enjoy their favorite meals. Our systems support flight operations, reservations, checkin, revenue optimization, baggage reconciliation, cargo management, in-flight services, crew management and many more operations.

Our accreditations include CMMI Level 3, ISO 9001:2000, Microsoft Gold partnership IATA, IBM PartnerWorld and Oracle PartnerNetwork memberships.

All our achievements are powered by a team of dynamic IT experts and our consultants have repeatedly won awards for R&D breakthroughs in the aviation domain. We urgently require bright and enthusiastic young professionals to work with our teams in Sri Lanka, the Middle East, UK and Scandinavia. If you have the drive and the skill, we have the capabilities to make your career take off.
